

Splitting a list item that does not fit

- This item holds more examples than will fit in a frame, so it has to be broken across pages.

Example 1:

```
line 1 of example 1  
line 2 of example 1  
line 3 of example 1  
line 4 of example 1  
line 5 of example 1
```

Example 2:

```
line 1 of example 2  
line 2 of example 2  
line 3 of example 2  
line 4 of example 2  
line 5 of example 2
```

Example 3:

```
line 1 of example 3  
line 2 of example 3  
line 3 of example 3  
line 4 of example 3  
line 5 of example 3
```

Example 4:

```
line 1 of example 4  
line 2 of example 4  
line 3 of example 4  
line 4 of example 4  
line 5 of example 4
```

Example 5:

```
line 1 of example 5  
line 2 of example 5  
line 3 of example 5  
line 4 of example 5  
line 5 of example 5
```

Example 6:

```
line 1 of example 6  
line 2 of example 6  
line 3 of example 6
```

```
line 4 of example 6  
line 5 of example 6
```

Example 7:

```
line 1 of example 7  
line 2 of example 7  
line 3 of example 7  
line 4 of example 7  
line 5 of example 7
```

Example 8:

```
line 1 of example 8  
line 2 of example 8  
line 3 of example 8  
line 4 of example 8  
line 5 of example 8
```

Example 9:

```
line 1 of example 9  
line 2 of example 9  
line 3 of example 9  
line 4 of example 9  
line 5 of example 9
```

Example 10:

```
line 1 of example 10  
line 2 of example 10  
line 3 of example 10  
line 4 of example 10  
line 5 of example 10
```

Example 11:

```
line 1 of example 11  
line 2 of example 11  
line 3 of example 11  
line 4 of example 11  
line 5 of example 11
```

Example 12:

```
line 1 of example 12  
line 2 of example 12  
line 3 of example 12  
line 4 of example 12  
line 5 of example 12  
line 6 of example 12  
line 7 of example 12
```

- A second item, so that the first one is not the last thing here.
